Dear Sir:

In accordance with the continuing duty of candor and good faith that is to be demonstrated before the United States Patent and Trademark Office, applicants submit a copy of another Answer in the civil litigation between the 3M Company and the 3M Innovative Properties Company ("3M") and Moldex-Metric, Inc. In this lawsuit, the defendant, Moldex-Metric, Inc. has filed an Answer to a third Complaint filed by 3M. In so doing, Moldex has filed counter-claims for a declaratory judgment of noninfringement and invalidity of U.S. Patent RE37,974 to Bowers, U.S. Patent 6,843,248 to Japuntich et al., and U.S. Patent 6,854,463 to Japuntich et al. Moldex contends that each of these patents are invalid under 35 USC § 102 and 35 USC § 103. Moldex also asserts that all patents are invalid for "containing a specification and claims which do not meet one or more of the requirements of 35 USC § 112, i.e., written description, enablement, best mode, and definiteness."

Please contact applicants' attorney if the Examiner desires more information regarding the defenses raised by each of the defendants. It is respectfully requested that the Examiner initial and return the enclosed Form PTO-1449 to indicate that this item has been considered.
